- Supporting deployment, debugging, and performance improvements in production systems.

Full Stack Developer

FreeddyGo

May 2022 - December 2025, Pune

- Led the architecture, development, and deployment of multiple web and mobile products.
- Built FreedyGo, a B2B platform for HoReCa, retail, and wholesale sectors (web, Android, iOS).
- Developed an AI-powered job portal (Skilotech) featuring resume ranking, onboarding, and hiring modules.
- Designed and implemented HRMS modules for attendance, payroll, and leave management.

PROJECT

FreeddyGo

FreeddyGo • www.freeddygo.com/

- As a Full Stack Developer at FreedyGo, I build and maintain front-end and back-end systems for the e-commerce platform, creating responsive UIs, managing databases, developing APIs, and ensuring smooth client-server integration with features like product browsing, cart management, and secure payments.

Skilotech

Freeddygo • www.skilotech.com/

- Skilotech is a job portal and resume builder platform with interactive UIs, secure back-end systems, and features like job listings and applicant tracking, ensuring a seamless, secure, and optimized user experience.

Hrms Dashboard, Application

Freeddygo • play.google.com/store/apps/details?id=com.hrms_app&hl=en_IN

- I built a React Native-based HRMS app for attendance management, enabling employees to mark attendance, apply for leave, and track records.
- I also developed an admin dashboard for managing employees, leaves, attendance, and holidays, ensuring real-time data sync and a smooth user experience.
